**IF THE PERMIT IS APPROVED, IT WILL BE GOOD FOR ONE (1) YEAR FROM THE LAST DAY OF THE MONTH IN WHICH IT IS APPROVED BY THE CITY COUNCIL.** If the project has not been completed within one (1) year, the permit holder may apply to the Planning Commission and City Council, prior to the expiration date of the permit, for one extension at no additional charge. If work is still not completed at the end of the six (6) month extension, the permit holder must apply for a new permit. The Planning Commission and City Council will consider said application in the same manner as any new permit application received including the scheduling of any hearings that might be necessary before approval is given as well as the imposition of any fees charged for such a permit. If an extension is not requested before the one (1) year expiration date, the permit holder must apply for a new permit and the same requirements apply as when a six (6) month extension has expired without completion of the project.
